

WHO'S MAKING IT HAPPEN?

COMPANIES IN MOTION TO REVOLUTIONIZE THE BICYCLE INDUSTRY

SYSTEM DESIGNER AND MANUFACTURER

Carbon Drive™ is the brainchild of Gates Corporation, a company with a legacy of creating long-lasting, superior-performing power transmission products. From driving 1000 Horsepower blower engines to working with industry leaders such as BMW, Harley-Davidson, and Bombardier, Gates has been offering its drive-train expertise to the automotive, industrial, and engine-powered world since 1911. With the Carbon Drive, Gates committed to bringing its unparalleled standards, unwavering product support and proven product development capacity to the bicycle market. Demand for the revolutionary technology only grows.

PARTNERS

These companies helped introduce the Carbon Drive System to the bicycle industry.

CD Enterprises
